Thinking about reopening schools, move the slider to indicate the degree to which you agree more with one of the following two statements:
A) COVID-19 has been extremely disruptive and Arkansas students are falling behind every day. It's important to get back to school and get the economy reopened again as soon as possible so our kids don't fall further behind their peers in other states.--OR-- B) Schools should reopen only after public health experts determine it's safe to return, with educator input and adequate planning and equipment to protect school employees, students and visitors from COVID-19.
